ASSET ALLOCATION

The fund is multi-faceted and will have exposure to a combination of U.S. and international stocks, bonds, REITs, commingled funds, precious metals and other commodities, and cash equivalents.

The Fund strives to achieve the target asset allocation represented by the chart above. However, such allocation may be changed as the investment research provider or sub-advisor deems necessary in response to certain market conditions in order to seek to achieve the Fund's stated investment objective. There is no assurance that the Fund will achieve its investment objective.

Diversification may not protect against market risk. There are risks involved with investing, including possible loss of principal. Before investing in any investment portfolio, the client and the financial professional should carefully consider client investment objectives, time horizon, risk tolerance, and fees.

Performance data quoted is a Model Portfolio performance that was calculated using the Investment Research Provider Tactical Allocation Group (TAG)'s aggressive strategy gross performance. Benchmark or indices are used to track current and historical market performance. The benchmark for the FACETS Lifestyle Aggressive Fund is the S&P 500 Index. The volatility of the FACETS Lifestyle Aggressive Fund may be materially different than the benchmark because the Fund does not invest only in securities traced by this index. The performance quoted here does not guarantee future results or protect from possible loss. As market conditions fluctuate, the investment return and principal value of any investment will change.

Performance information reflects past performance and does not guarantee future results or protect from possible loss. Current and future results may be lower or higher than those shown. Performance Returns shown reflect the reinvestment of dividends and capital gains, as well as the deduction of applicable fees and expenses such as audit fees. In addition, Performance Returns for periods greater than one year will be annualized.

OBJECTIVE

The FACETS Lifestyle Aggressive Fund follows an opportunistic investment strategy. The objective of this fund is to seek to aggressively exploit global capital market investment opportunities.

Five Levels of Risk Management: Understanding and modeling risk is a research priority. We view risk in terms of potential loss of capital and believe it is important to look at both returns and the risk taken to achieve those returns. Returns alone tell only half the story.

Broad Diversification: We broadly diversify investment portfolios across the global capital markets by accessing selectively from a universe of 30 asset classes.

QDIA: When used as a Qualified Default Investment Alternative (QDIA) solution for plan sponsors who must decide to invest a participant's account when no other direction is available or provided, fund options within FACETS Collective Funds may provide a safe harbor under the Pension Protection Act (PPA) to limit liability for plan fiduciaries. Since the FACETS Collective Funds meet the requirements for QDIA under the PPA, this fund solution can stand alone or dovetail with an existing plan advisor's own fund selection.

Additionally, participants and beneficiaries on whose behalf assets are invested in the QDIA have the right to redirect the investment to any other investment alternative under the plan.

WHO SHOULD INVEST *This fund may be appropriate for individuals with a time horizon of greater than five years, substantial tolerance for risk, and an ability to withstand a permanent loss of capital.*

FEES: There are no sales commissions or redemption fees charged for purchases and sales of interests in the Fund. The total expense ratio (TER) is 0.75% per annum of the total assets held in each fund, or \$7.50 per \$1,000. The Trustee Fee accrues on a daily basis and is payable monthly in arrears. The Trustee Fee is charged directly to each particular CIF. A portion of the TER (0.60%) will be paid to Fiduciary Consulting Group for sub-advisory service provided to the Trustee; additionally, a service fee of 0.20% may be paid to a service provider of the investing plan. The fund will invest in exchange-traded funds and collective investment trusts. To provide liquidity and ease of administration of the Fund, the Trustee requires that the Fund maintain 3% of its assets in cash. As permitted by the Declaration of Trust that governs the Fund, such cash may be invested in a deposit account or other cash vehicle maintained by the Trustee or an affiliate of the Trustee. The Fund Expense Ratio does not include costs of the underlying ETF funds. As of 12/31/11 the weighted ETF funds cost was approximately 0.45% and the turnover rate was 20%.

FUNDS: FACETS Funds are Collective Investment Funds (CIFs) created by the Hand Composite Employee Benefit Trust, and administered by Hand Benefits & Trust Company, the Trustee. Tactical Allocation Group, LLC (TAG) is the investment research provider to the Fund and is an SEC registered investment advisor, founded as an independent business entity in 2004. Prior to March 2004, the founders/principals operated as a unit of UBS. The CIFs are not mutual funds. Its shares are not deposits of Hand Benefits & Trust Company or Fiduciary Consulting Group (FCG), and are not insured by the Federal Deposit Insurance Corporation or any other agency. The CIFs are securities which have not been registered under the Securities Act of 1933 and are exempt from investment company registration under the Investment Act of 1940. The inception date of the FACETS Lifestyle Aggressive Fund is September 1, 2011. For more information, please visit www.fiduciaryconsultinggroupllc.com.
