

# HB&T FOREIGN BLEND INDEX FUND R2

Investment Category: Foreign Large Blend

All data as of December 31, 2011

## About The Fund

The HB&T Foreign Blend Index Fund is a collective investment fund (CIF) created by the Hand Composite Employee Benefit Trust and sponsored by Hand Benefits & Trust Company.

## Investment Strategy

The HB&T Foreign Blend Index Fund is invested in the Blackrock EAFE Equity Index Fund, also a pooled collective fund, and is structured to produce returns that are consistent with the MSCI EAFE Index. The Index Fund attempts to duplicate the investment performance of the MSCI EAFE by owning 85% of the publicly traded foreign stocks appropriately weighted and represented by the MSCI EAFE Index.

The MSCI EAFE Index was developed by Morgan Stanley Capital International (MSCI) as an equity benchmark for tracking international stock performance in Europe, Australia and the Far East (EAFE) markets. MSCI EAFE is a capitalization-weighted index that aims to capture at least 85% of (publicly traded) foreign companies. MSCI EAFE Index is a blend of both growth and value oriented companies with no particular bias given to either style. In addition, the Index is comprised of small, mid and large cap foreign stocks. Component companies are adjusted for available float and must meet objective criteria for inclusion to the index. Reconstitution for the index is annual.
