Independent Auditor's Report

Board of Directors Hand Composite Employee Benefit Trust Houston, Texas

We have audited the accompanying financial statements of the selected fund, Western Asset Long Duration Credit CIF, included in the Hand Composite Employee Benefit Trust ("Trust" or "Fund"), which comprise the statement of assets and liabilities, including the schedule of investments, as of December 31, 2019, and the related statements of operations and changes in net assets for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Directors Hand Composite Employee Benefit Trust Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the selected fund, Western Asset Long Duration Credit CIF, as of December 31, 2019, and the results of its operations and the changes in its net assets for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of investment purchases and sales listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Hand Composite Employee Benefit Trust ("HB&T" or "the Trust") was created in order to provide broad and uniform diversification programs for pension and profit sharing plans which, having complied with the requirements of the Internal Revenue Code (the IRC), are exempt from taxation under the provisions of the IRC. The Trust is comprised of 76 portfolios (the Funds); the financial statements of one of those funds, the Western Asset Long Duration Credit CIF (the Fund), are included in this report.

Each class of the Fund has equal rights as to earnings and assets except that each class bears different distribution, shareholder servicing and transfer agent expenses. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments and foreign currency are allocated to each class of units based on its relative net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of investment income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation

All investments in securities are recorded at their estimated fair value. Transfers in and out of Level 1 (quoted market prices), Level 2 (significant other observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period ending date.

Investment Transactions

Investment transactions are accounted for on trade date. Realized gains and losses from investment transactions and unrealized appreciation or depreciation of investments are reported on the identified cost basis.

Foreign Currency

Investment securities and other assets and liabilities denominated in, or expected to settle in, foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

Notes to Financial Statements December 31, 2019

The Fund isolates that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held.

Reported net realized foreign exchange gains or losses arise from sales of portfolio securities, sales and maturities of short term securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the values of assets and liabilities, including investments in securities at December 31, 2019, resulting from changes in the exchange rates.

Futures Contracts

The Fund uses futures contracts generally to gain exposure to, or hedge against, changes in interest rates or gain exposure to, or hedge against, changes in certain asset classes. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date.

Upon entering into a futures contract, the Fund is required to deposit cash or cash equivalents with a broker in an amount equal to a certain percentage of the contract amount. This is known as the "initial margin" and subsequent payments ("variation margin") are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. For certain futures, including foreign denominated futures, variation margin is not settled daily, but is recorded as a net variation margin payable or receivable. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. The daily changes in contract value are recorded as unrealized gains or losses in the statement of operations and the Fund recognizes a realized gain or loss when the contract is closed.

Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

Swap Agreements

The Fund invests in swaps for the purpose of managing its exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with other portfolio transactions. Swap agreements are privately negotiated in the over-the-counter market ("OTC Swaps") or may be executed on a registered exchange ("Centrally Cleared Swaps"). Unlike Centrally Cleared Swaps, the Fund could have credit exposure to the counterparties of OTC Swaps.

Swap contracts are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). The daily change in valuation of Centrally Cleared Swaps, if any, is recorded as a receivable or payable for variation margin on the statement of assets and liabilities.

Notes to Financial Statements December 31, 2019

Gains or losses are realized upon termination of the swap agreement. Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with the terms of the swap contracts. Securities posted as collateral for swap contracts are identified in the schedule of investments and restricted cash, if any, is identified on the statement of assets and liabilities. Risks may exceed amounts recorded in the statement of assets and liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms, and the possible lack of liquidity with respect to the swap agreements.

OTC swap payments received or made at the beginning of the measurement period would be reflected as a premium or deposit, respectively, on the statement of assets and liabilities. These upfront payments are amortized over the life of the swap and are recognized as realized gain or loss in the statement of operations. Net periodic payments received or paid by the Fund are recognized as a realized gain or loss in the statement of operations.

As of December 31, 2019, the Fund had no exposure to OTC swaps.

Investment Income and Distribution of Income

Dividend income less foreign taxes withheld, if any, is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Investment income is allocated ratably on the valuation dates among all participants. No distributions are made to participants in the Fund until units owned are redeemed, at which time the market value of redeemed units is distributed. Investment income and realized gains (if any) earned by the Fund are reinvested, thereby increasing the respective unit values.

Valuation of Participants' Interest

Units of participation may be purchased or redeemed on the valuation dates at the fair value per unit on such valuation dates. The Fund is valued daily.

Federal Income Taxes

The Fund complies with the requirements under Section 501(a) of the IRC and apportion all of its taxable income to its participants. Therefore, no federal income tax provision is required.

Subsequent Events

As a result of the spread of the COVID-19 coronavirus in 2020, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the Fund. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

Subsequent events have been evaluated through May 22, 2020, which is the date the financial statements were available to be issued.

Notes to Financial Statements December 31, 2019

Investment Management Advisors

The investment management advisor for the Fund is Western Asset Management Company.

Note 2: Futures Contracts

At December 31, 2019, the Fund had the following open futures contracts:

	Number of Contracts	Expiration Date	Basis Value	Market Value	Unrealized Appreciation (Depreciation)
Contracts to Buy:					
U.S. Treasury 2-Year Notes	6	3/20	1,294,768	1,293,000	\$ (1,768)
U.S. Treasury 5-Year Notes	198	3/20	23,571,037	23,484,656	(86,381)
U.S. Treasury Long-Term Bonds	228	3/20	36,251,321	35,546,625	(704,696)
U.S. Treasury Ultra Long-Term Bonds	7	3/20	1,313,403	1,271,594	(41,809)
					(834,654)
Contracts to Sell:					
Euri-Bond Future	3	3/20	580,880	573,716	7,164
Long GILT Future	4	3/20	698,428	696,104	2,324
U.S. Treasury 10-Year Notes	84	3/20	10,882,491	10,787,438	95,053
					104,541
Net unrealized depreciation on open	futures contracts				\$ (730,113)

Note 3: Foreign Currency Forward Exchange Contracts

At December 31, 2019, the Fund had the following open forward foreign currency contracts:

Cu	rrency I	Purchased	Curren	cy Sold	Counterparty	Settlement Date	_	realized reciation
EUR GBP	\$	376,451 400,000	USD \$ USD	420,056 528,633	UBS AG UBS AG	01/17/20 01/17/20	\$	(2,938) (2,346)
	Total						\$	(5,284)

Abbreviations used in the above table:

EUR	Euro
GBP	British Pound
USD	United States Dollar

Notes to Financial Statements December 31, 2019

Note 4: Investment Advisory Fees and Other Transactions With Affiliates

The Fund is charged a fee by HB&T for trustee/administrative services and other fees which include fund accounting services, transfer agency services, custody services, etc. The Fund has also entered into investment advisory and service agreements with a third-party advisor. These fees compensate the advisor for the services it provides and for expenses borne by the advisor under the agreement.

During the year ended December 31, 2019, the investment advisor voluntarily reimbursed the Fund for a portion of its expenses.

The following table indicates the fees charged to the Fund and the various classes of units within the Fund (as a percentage of net assets). These charges are calculated using the Fund's prior day's total net assets:

	Trustee/ Administrative	Investment Management		
Fund	Fees	Fees	Other Fees	Total Fees
Western Asset Long Duration Credit CIF:				
Class R	0.04%	0.20%	0.07%	0.31%
Class R1	0.04%	0.30%	0.07%	0.41%
Class R2	0.04%	0.25%	0.07%	0.36%

Net increase in total net assets from participant transactions		\$ 43,955,555			

Note 7: Disclosures About Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- **Level 1:** Quoted prices in active markets for identical assets or liabilities that the Fund can access at the measurement date.
- **Level 2:** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- **Level 3:** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statement of assets and liabilities, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2019.

Notes to Financial Statements December 31, 2019

Short Term Investments. Short term investments, including money market funds, for which market quotations are readily available, are valued at the last reported sales price or official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy.

Common and Preferred Stock. Securities traded on a national securities exchange (or reported on the NASDAQ national market) are valued at the last reported sales price or official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments, such as American Depository Receipts and the movement of certain indexes of securities based on a statistical analysis of the historical relationship and are categorized as either Level 1 or 2 of the hierarchy; however, if the trading information is stagnate for an extended period of time, the securities will be categorized as Level 3.

Corporate Bonds and Municipal Bonds. The fair value of corporate bonds and municipal bonds are estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Corporate bonds and municipal bonds are categorized as Level 2 in the hierarchy.

Foreign Government Obligations. Foreign Government obligations are valued using models that incorporate market observable data, such as reported sales of similar securities, broker quotes, yields, bids, offers and reference data. Certain securities are valued principally using dealer quotations. These securities are categorized as Level 2 in the hierarchy.

Asset-backed and Mortgage-backed Securities. These securities are valued using models that incorporate observable data, such as prepayments, delinquencies, yields, bids, offers, collateral seasoning and other factors. Deal specific scenarios are derived from historical performance information and loan level details. These securities are categorized as Level 2 in the hierarchy.

U.S. Government and Agency Obligations. U.S. Government obligations are valued using a model that incorporates market observable data, such as reported sales of similar securities, broker quotes, yields, bids, offers and reference data. Certain securities are valued principally using dealer quotations. U.S. Government obligations are categorized as Level 2 in the hierarchy.

Future Contracts. Futures contracts are marked-to-market on the daily fluctuations between the contract price and the market value of the underlying, as reported on a recognized exchange. Futures contracts are categorized as Level 1 in the hierarchy.

Forward Currency Exchange Contracts. These contracts are valued at the prevailing forward exchange rate of the underlying currencies on the reporting date and unrealized gains or losses recorded daily. Foreign currency contracts are generally categorized as Level 2 in the hierarchy.

Notes to Financial Statements December 31, 2019

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statement of assets and liabilities measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019:

Note 8: Risk Factors

Investment Securities Risk

The Fund invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying statement of assets and liabilities.

Foreign Securities Risk

Securities traded in foreign markets have often (though not always) performed differently from securities traded in the United States. However, such investments often involve special risks not present in U.S. investments that can increase the chances that the Fund will lose money. In

Notes to Financial Statements December 31, 2019

particular, the Fund is subject to the risk that because there may be fewer investors on foreign exchanges and a smaller number of securities traded each day, it may be more difficult for the Fund to buy and sell securities on those exchanges. In addition, prices of foreign securities may go up and down more than prices of securities traded in the United States.

Currency Risk

Securities and other instruments in which the Fund invests may be denominated or quoted in currencies other than the U.S. Dollar. Changes in foreign currency exchange rates may affect the value of the Fund's portfolio. Because the Fund's assets are primarily invested in securities of foreign countries, the U.S. dollar equivalent of the Fund's net assets would be adversely affected by reductions in the value of the foreign currencies relative to the U.S. dollar. For this reason, changes in foreign currency exchange rates can affect the value of the Fund's portfolio. Generally, when the U.S. dollar rises in value against a foreign currency, a security denominated in that currency loses value because the currency is worth fewer U.S. dollars. Conversely, when the U.S. dollar decreases in value against a foreign currency, a security denominated in that currency gains value because the currency is worth more U.S. dollars. This risk, generally known as "currency risk," means that a strong U.S. dollar may reduce returns for U.S. investors in foreign stocks while a weak U.S. dollar may increase those returns.

Note 9: Derivative Instruments and Hedging Activities

Below are tables, grouped by derivative type, that provide information about the fair value and location of derivatives within the statement of assets and liabilities at December 31, 2019:

	Asset Derivatives (1)					
	Inte	Total				
Futures contracts (2)	\$	104,541	\$	104,541		
Total	\$	104,541	\$	104,541		

Liability Derivatives ''								
lı	nterest	Ex	change					
Rate Risi			Risk	Total				
\$	834,654	\$	-	\$	834,654			
			5,284		5,284			
\$	834,654	\$	5,284	\$	839,938			
	\$	Interest Rate Risk \$ 834,654	Interest Ex Rate Risk \$ 834,654 \$	Interest Exchange Rate Risk \$ 834,654 \$ - 5,284	Interest Exchange Rate Risk \$ 834,654 \$ - \$ 5,284			

⁽¹⁾ Generally, the statement of assets and liabilities location for asset derivatives is receivables/net unrealized appreciation (depreciation) and for liability derivatives is payables/net unrealized appreciation (depreciation)

(1)

⁽²⁾ Includes cumulative unrealized appreciation (depreciation) of futures contracts as reported in Note 2. Only variation margin is reported within receivables and/or payables on the statement of assets and liabilities.

Notes to Financial Statements December 31, 2019

The following tables provide information about the effect of derivatives and hedging activities on the Fund's statement of operations for the year ended December 31, 2019. The first table provides additional detail about the amounts and sources of gains (losses) realized on derivatives during the period. The second table provides additional information about the change in unrealized appreciation (depreciation) resulting from the Fund's derivatives and hedging activities during the year:

Amount of Realized Gain (Loss) on Derivatives Recognized

	Interest tate Risk	Cre	edit Risk	Total
Futures contracts Swap contracts	\$ 4,154,935	\$	70,184	\$ 4,154,935 70,184
Total	\$ 4,154,935	\$	70,184	\$ 4,225,119

Change in Unrealized Appreciation (Depreciation) on Derivatives Recognized

		Interest Rate Risk	oreign ange Risk	Cre	edit Risk	Total
Futures contracts Foreign currency exchange	\$	(2,017,871)	\$ -	\$	-	\$ (2,017,871)
contracts		-	(5,284)		-	(5,284)
Swap contracts	-	-	 		16,326	 16,326
Total	\$	(2,017,871)	\$ (5,284)	\$	16,326	\$ (2,006,829)

During the year ended December 31, 2019, the volume of derivative activity for the Fund was as follows:

	Average Market Value				
Futures contracts (to buy)	\$	43,934,134			
Futures contracts (to sell)		3,664,315			
Foreign currency exchange contracts (to sell)		73,383			
		Average Notional Balance			
Credit default swap contracts (to sell protection)	\$	1,030,000			

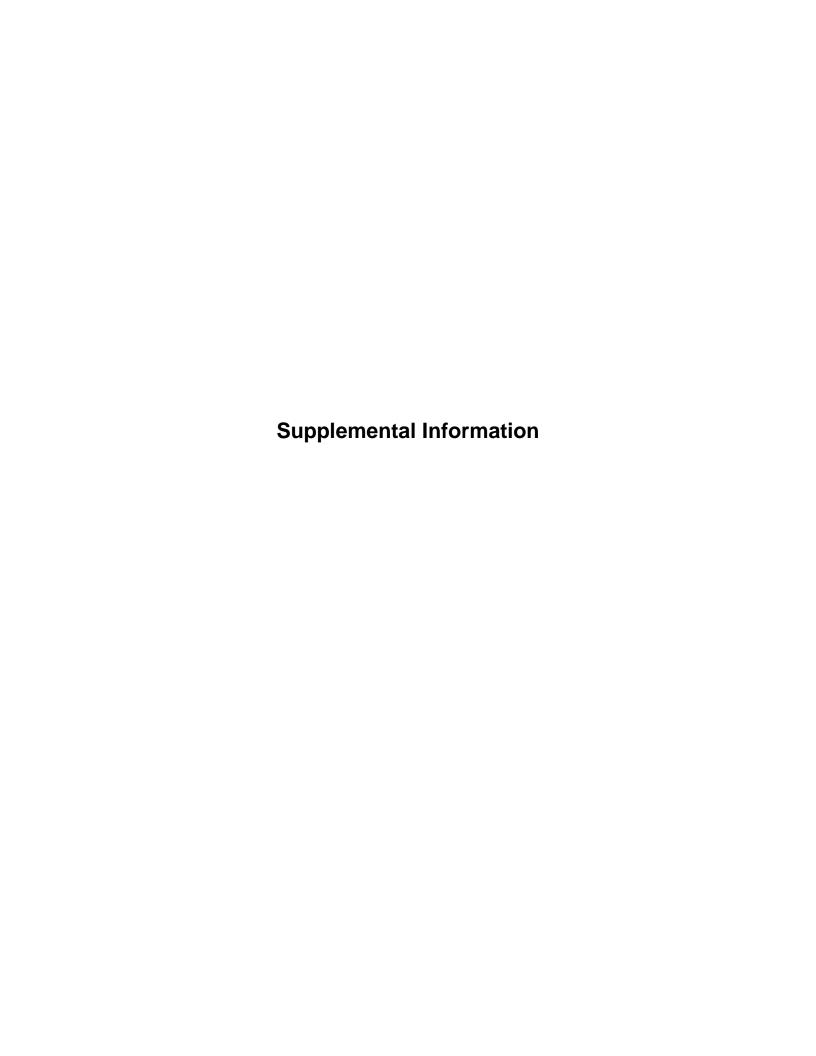

Notes to Financial Statements December 31, 2019

The following table presents, by financial instrument, the Fund's derivative assets net of the related collateral received by the Fund at December 31, 2019:

	Derivation the As	s Amount of ative Assets Statement of sets and bilities ⁽¹⁾		ateral eived	Α	Net mount
Futures contracts (2)	\$	9,499	\$		\$	9,499
Total	\$	9,499	\$	0	\$	9,499
	Gross Amount of Derivative Liabilities in the Statement of Assets and Liabilities (1)		Collateral Pledged		Net Amount	
Futures contracts (2) Foreign currency exchange contracts	\$	738,696 5,284	\$	- -	\$	738,696 5,284
Total	\$	743,980	\$	0	\$	743,980

⁽¹⁾ Absent an event of default or early termination, derivative assets and liabilities are presented gross and not offset in the statement of assets and liabilities.

⁽²⁾ Amount represents the current day's variation margin as reported in the statement of assets and liabilities. It differs from the cumulative appreciation (depreciation) presented in the previous table.
